## Daytona Bike Week 2002

By Paul Holko

If you have never attended this classic event, you should. This is the most motorcycles you will ever see at one place at one time. Daytona Bike Week stretches for 55 miles or more from St. Augustine, Florida to New Smyrna Beach, Florida. More motorcycles than you ever hope to see in one area, The *natives* welcome the bikers and go *all-out* to make everyone feel welcome. In St. Augustine, only bikes can park around the town square. In Daytona Beach, Main Street, which is about one mile long, is only open to bikes. Bikes and people line both sides of Main Street, wall-to-wall bikes and wall-to-wall people. It's great! The atmosphere, the bikes, the **noise**, the people, all make Daytona Bike week something **all** motorcyclist should do.

You see some beautiful people and beautiful custom motorcycles during Bike Week. It is the greatest motorcycle and people show on earth. Yes, even a hearse or two, or three!

**Be There In 2003!**
